

JEEVANAND J

Computer Science & Engineering Student

PROFILE

Motivated Computer Science Engineering student focused on software development, embedded systems, and real-world engineering projects. Interested in building practical systems combining hardware and software.

EDUCATION

B.Tech in Computer Science and Engineering (2025 - 2029 Expected)

Institution: Your College Name

Focused on programming, DSA, and system building.

TECHNICAL SKILLS

Programming: C, C++, Python, JavaScript

Web: HTML, CSS, React, Node.js basics

Hardware: Arduino Leonardo, sensors, circuits

Tools: Git, GitHub, VS Code

PROJECTS

DIY Racing Simulator: Arduino-based steering, throttle and brake system using potentiometers. Working towards force feedback integration.

Bluetooth Stereo System: Portable audio system using TPA3110 amplifier and IP2312 Type-C charging module.

React Portfolio Website: Personal portfolio built using React + Vite with responsive UI components.

GOALS

To build strong software engineering skills, secure internships, and develop impactful real-world projects in software and embedded systems.
